Dynalene HT

1. Product and Company Identification

1.1 Product identifiers
Product Name: Dynalene HT
Producer: Dynalene, Inc.
Product Number: Not available.
CAS-No.: Not available.

1.2 Identified uses of the product and uses advised against
Identified Uses: Heat transfer fluid

1.3 Details of the chemical supplier
Company: Dynalene, Inc.
5250 West Coplay Road
Whitehall, PA 18052
USA
Telephone: +1 610-262-9686
Fax: +1 610-262-7437

1.4 Emergency telephone number
Within the U.S.: +1 800-424-9300 (CHEMTREC)
Outside the U.S.: +1 703-527-3887 (CHEMTREC)

2. Hazards Identification

2.1 Classification of the substance or mixture
GHS Classification in accordance with 29 CFR 1910 (OSHA HCS)
Aspiration hazard (Category 1), H304
Aquatic chronic (Category 4), H413

2.2 GHS Label elements, including precautionary statements

Pictogram

Signal word Danger

Hazard statement(s)
H304 May be fatal if swallowed and enters airways.
H413 May cause long-lasting harmful effects to aquatic life.

Precautionary statement(s)
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting.
Avoid release to the environment.
Store locked up. Dispose of contents/container to an approved waste disposal plant.

2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

None.

3. Composition/Information on Ingredients
3.1 **Product mixture**

- **Synonyms:** Mixture.
- **Molecular Wt:** Not available.
- **CAS-No.:** Not available.

4. **First Aid Measures**

4.1 **Description of first aid measures**

**Skin exposure**
If this product contaminates the skin, wash off with soap and plenty of water. Consult a physician.

**Eye exposure**
If this product enters the eyes, rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

**Inhalation**
If mists of this product are inhaled, remove victim to fresh air. If necessary, use artificial respiration to support vital functions. Consult a physician.

**Ingestion**
Aspiration hazard. May be fatal if swallowed and enters airways. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

4.2 **Most important symptoms and effects, both acute and delayed**
The most important known symptoms and effects are described in the labelling (see section 2.2) and in section 11.

4.3 **Indication of any immediate medical attention and special treatment needed**
Treat symptomatically.

5. **Fire Fighting Measures**

5.1 **Suitable (and unsuitable) extinguishing media**
Suitable: Water spray, carbon dioxide, foam, dry chemical, any ABC class.

5.2 **Specific hazards arising from the chemical**
Combustion products may include airborne solid and liquid particulates and gases (smoke). Carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds. Vapor is heavier than air and spreads along the ground.

5.3 **Advice for firefighters**
Structural fire fighters must wear Self-Contained Breathing Apparatus and full protective equipment. Move fire-exposed containers if it can be done without risk to firefighters. If possible, prevent run-off water from entering storm drains, bodies of water, or other environmental areas.

5.4 **Further information**
Use water spray to cool unopened containers. Remove containers from danger zone.

6. **Accidental Release Measures**

6.1 **Personal precautions, protective equipment, and emergency procedures**
Uncontrolled releases should be responded to by trained personnel using pre-planned procedures. Proper protective equipment should be used. In case of an uncontrolled release, clear the affected area, protect
people, and respond with trained personnel. Remove all possible sources of ignition. Disperse gas to safe location by using fog sprays. Take precautionary measures against static discharge. Avoid breathing dust. Ensure adequate ventilation. Avoid breathing dust.

6.2 Environmental precautions
Do not let product enter drains.

6.3 Methods and materials for containment and cleaning up
Sweep up and shovel. Eliminate sources of ignition. Contain spillage with sand or earth, and then collect with an electrically protected vacuum cleaner or by wet brushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers for disposal. Soak up with appropriate absorbent material and dispose of safely. Keep public away and advise authorities.

Water spill
Eliminate sources of ignition. Warn occupants and shipping in surrounding and downwind areas of fire and explosion hazard and request all to stay clear. Remove from surface by skimming or with suitable adsorbents. If allowed by local authorities and environmental agencies, sinking and/or suitable dispersant may be used in non-confined waters. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

6.4 References to other sections
For disposal see section 13.

7. Handling and Storage

7.1 General hygiene considerations
Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the day. Avoid breathing vapors or contact with material.

7.2 Precautions for safe handling
All employees who handle this material should be trained to handle it safely. Use in a well-ventilated location. Open drums and other containers of this product slowly, on a stable surface. Drums and other containers of this product should be properly labeled. Empty drums and containers may contain residual amounts of this product, therefore empty containers should be handled with care. Keep away from heat and sources of ignition – no smoking. Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Use proper bonding and/or grounding procedures. Do NOT pressurize, cut, heat, or weld containers.

7.3 Conditions for safe storage, including any incompatibilities
Move drums of this product carefully, with the appropriate drum-handling equipment. Store drums and other containers in cool, dry locations, away from direct sunlight, or sources of intense heat. Storage areas should be made of fire-resistant materials. Keep containers away from incompatible chemicals. Keep containers tightly closed and in dry, well-ventilated places. Do not eat or drink around this material.

8. Exposure Controls/Personal Protection

8.1 Control and exposure limits recommended by the chemical manufacturer
Contains no substance within occupational exposure limits.

8.2 Appropriate engineering controls
Use with adequate ventilation to minimize exposure to mists or sprays of this product. Prudent practice is to ensure eyewash/safety shower stations are available near areas where this product is used. Monitoring of oxygen level is recommended. Decontaminate the area thoroughly. If necessary, decontaminate spill response equipment with soap and water solution.

8.3 Individual protection measures, such as personal protective equipment
Respiratory protection
None needed for normal circumstances of use. If respiratory protection is needed, use only protection authorized in 29 CFR 1910.134, or applicable State regulations. Use supplied air respiration protection if oxygen levels are below 19.5% or are unknown.

Eye protection
Wear safety glasses with side shields.

Hand protection
Wear butyl rubber, natural rubber, neoprene, Nitrile rubber, or other suitable gloves for routine industrial use.

Body protection
Complete suit protecting against chemicals. Impervious clothing.

9. Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

- **Appearance**: Liquid, clear/light yellow.
- **Odor**: Hydrocarbon-like.
- **Odor threshold**: No data available.
- **pH**: No data available.
- **Melting/freezing point**: <-30°C (<-22°F)
- **Boiling point**: 390°C (734°F)
- **Flash point**: 212°C (414°F); closed-cup
- **Evaporation rate**: No data available.
- **Flammability (solid, gas)**: No data available.
- **Upper/lower flammability or explosive limits**: Upper (UEL): No data available. Lower (LEL): No data available.
- **Vapor pressure**: < 0.01 hPa at 20°C (68°F)
- **Relative vapor density**: >1 (Air = 1)
- **Relative density**: 1.04 g/cm³ at 25°C (77°F)
- **Water solubility**: Negligible.
- **Partition coefficient: n-octanol/water**: log Pow: > 6 at 22°C (72°F)
- **Auto-ignition temp**: No data available.
- **Decomposition temp**: No data available.
- **Viscosity, kinematic**: 48 cSt at 20°C (68°F)

10. Stability and Reactivity

10.1 Reactivity
None reasonably foreseeable.

10.2 Chemical stability
Stable under ordinary conditions of use and storage.

10.3 Possibility of hazardous reactions
No data available.

10.4 Conditions to avoid
Contact with incompatible chemicals and exposure to extremely high temperatures. Avoid electrical sparks and other sources of ignition.
10.5 **Incompatible materials**
Strong oxidizers, strong acids, acid chlorides, acid anhydrides, chloroformates, organic materials, cyanides, thiocyanates, or strong reducing agents.

10.6 **Hazardous decomposition products**
Hazardous gases and vapors produced in fire. Carbon dioxide, carbon monoxide. In the event of fire, see section 5.

11. **Toxicological Information**

11.1 **Information on toxicological effects**

**Acute toxicity**
- LD50 Oral – rat: >5,000 mg/kg
- LD50 Dermal – rabbit: 2,000 – 4,000 mg/kg

**Skin corrosion/ irritation**
No data available.

**Serious eye damage/eye irritation**
No data available.

**Suspected cancer agent**
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by IARC, ACGIH, NTP, or OSHA.

**Irritancy of product**
This product may cause irritation to contaminated tissues.

**Reproductive toxicity**
This product is not reported to produce mutagenic, embryotoxic, teratogenic, or reproductive effects in humans.

**Medical conditions aggravated by exposure**
It is anticipated that mainly skin, eye, and respiratory disorders may be aggravated after over-exposure.

**Biological exposure indices**
Currently, there are no Biological Indices (BEIs) associated with the components of this product.

12. **Ecological Information**

12.1 **Ecotoxicity (aquatic and terrestrial)**
This product may be harmful to aquatic life if large quantities are released into bodies of water.

No data available.

12.2 **Persistence and degradability**
No data available.

12.3 **Mobility in soil**
No data available.

12.4 **Other adverse effects**
None.

13. **Disposal Considerations**

13.1 **Waste treatment methods**
Waste disposal must be in accordance with appropriate Federal, State, and local regulations. This product, if unaltered by use, may be disposed of by treatment at a permitted facility or as advised by your local hazardous waste regulatory authority.
14. Transport Information

| UN Number: | Not applicable. |
| Class: | Not applicable. |
| UN Proper Shipping Name: | Not applicable. |
| Packing Group: | Not applicable. |

IMDG / IATA
Not regulated as dangerous goods.

15. Regulatory Information

SARA 302
No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302 (Extremely Hazardous Substances).

SARA 313
This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313 (Toxics Release Inventory Chemicals).

SARA 311/312
(Emergency Planning and Community Right-to-Know Act): Aspiration hazard.

Massachusetts Right To Know
No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right To Know
No components are subject to the Pennsylvania Right to Know Act.

New Jersey Right To Know
No components are subject to the New Jersey Right to Know Act.

TSCA
All of the components of this product are on the Toxic Substance Control Act Inventory.

EINECS
All of the components of this product are on the EC Inventory as received from the JRC in 2008 on the founding of ECHA.

California Prop 65
This product does not contain ingredients that cause cancer or reproductive harm known to the state of California.

Canada DSL
All of the components of this product are on the Canadian Domestic Substance List.

16. Other Information

Revision Date
27 July 2020

This SDS was prepared by Dynalene, Inc.

The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. Dynalene Heat Transfer Fluids assumes no responsibility for injury to the vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Additionally, Dynalene Heat Transfer Fluids assumes no responsibility for injury to vendee or third persons proximately caused by abnormal use of the material even if reasonable safety procedures are followed. Furthermore, vendee assumes the risk in their use of the material.
